Become

A good long term filling material which will give many years of service. The main disadvantage is the silver which darkens with age. Amalgam fillings cause people believe is harmful.

Device

A common symptom of many overall health conditions is snoring. Effective anti-snoring devices only available which can help to prevent snoring and the associated health problems.

We can offer all ceramic bridges. If your natural teeth have been lost, crowns can be made to look like your own teeth. Manufactured by the same process as the replacement tooth (denture). This is cemented into the remaining teeth.
